

Letter of Assurance

All sports Camp at Jerry Clay Academy

- In preparation for the camp, we work very closely with the school to ensure there are plans and robust processes in place to make sure the children get the best camp experience.
- In addition to the preparation, ACamps work closely with JCA staff to ensure children attending the camps have a fun, active and safe time throughout their time with us.
- We ensure that all staff that are attending camp are DBS checked.
- We ensure that all staff have a minimum level 2 in an accredited sport qualification to ensure that children get the best from the experience at the camp.
- Each camp will have a designated safeguarding and first aid lead to ensure that the correct procedures are followed if needed.
- Ratios of children are taken into consideration at all times when staffing the camp to ensure children are safe at all times.
- In the presence of a 1-1 child, there will be a member of staff allocated to the child at all times and an action plan in place regarding the child.
- Each week may look different. This is because we want the week to be designed in relation to the interests of the children so they can have the best possible experience.
